Whole Number 407

Free Tractor School.

For the benefit of owners, and prospective owners of John Deere Tractors, a Free Tractor School will be held at the John Deere Building, corner of 107th St. and 103d Av., Edmonton, on Tuesday and Wednesday, Feb. 18th and 19th, starting at 9 a. m.

The School will thoroughly instruct the student in the Care, Maintenance and Operation of the tractor. The talks will be illustrated by charts and lantern slides—special equipment will be used to demonstrate tractor parts and their adjustment. Manual instructions on tractors will also be given.

Professor Macgregor Smith of the Agricultural Engineering Department of the University of Alberta will speak on selected subjects connected with power farming. The School will be of great interest to every farmer owning, or about to own, a John Deere tractor.

We specially invite you to be present at this School on the above dates February 18th and 19th, and will be glad if you will let us know as early in advance as possible of your intention to attend. We have to advise the Company of the number they may expect from this district.

Coyes—Maizemko

A pretty wedding was solemnised on Saturday last, Feb. 8, at St. Philip's R. C. Church, Stony Plain, when Miss Mostachea [Maizemko (daughter of Mr and Mrs Danyž Maizemko, of Glory Hills) was united in marriage to Mr John Coyes (son of Mr and Mrs Michael Coyes) of the same district.

Rev Chas. Keenan, pastor of the church, conducted the ceremony, in the presence of a large number of friends of the contracting parties.

After the ceremony, the bridal party and friends drove to the home of the bride's parents, where a sumptuous repast was partaken of by all. Dancing and games followed, the festivities being kept up for a considerable time.

In the evening a large party went up from Stony Plain, to partake of the hospitality, and report having had an excellent time.

The happy young couple, on the return from the honeymoon, will reside at the bridegroom's farm.

With the Curlers

After the doleful tales in connection with the adventures of our hockey exponents this season, it is with pleasure the Sporting Editor turns the page, to print cheerful news of the exploits of the curling quartet which has been representing the local club at the Edmonton bonspiel. The rink consists of A E Michael, F W Yeats, O G Wudel, R E Wood. It looks as though the Stony rink has been cleaning up all before it. Here's what the Bulletin says of one game last week:

"Here's R L McIntyre, the president of the Ass'n, out of the E.C.D. at this early date. The big contractor misjudged his opponent last night, and Stony's team trimmed him 12 to 10. It's too bad, but these things will happen. Finlay Yeats skipped the Stony's rink."

The Journal: "Another outfit to give the dope contains a very healthy and emphatic kick was the one from Stony Plain, skipped by Finlay W Yeats, late of Elgin, Scotland. The Sodabusters from Stony Plain, who caused a ripple of excitement when they beat Jack McIntyre in the E.C.D. came right back to add to their accomplishments by hanging the seals of Dr Keilor and Harold Deeton at their belts. They're putting Stony Plain on the map. It won't be long now before they are handing out the souveniers."

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is all, simple, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

The Immigration Problem

The subject of immigration, which is at present receiving a large share of attention by the people of Canada, and causing them no little concern, has always been in the forefront of national policy. It is likely to remain so for many years to come, as a result almost inevitable in the case of a young country of small population, vast unoccupied areas, and immense natural resources awaiting development. And especially so when, elsewhere in the world, there are numerous countries where population is already congested and the surplus people are anxiously looking abroad for some place in which to locate with a fair prospect of making a livelihood for themselves and their children.

It is probably true that in regard to no other question of vital national importance has public opinion in Canada, as in the United States, so completely changed within a few years as it has in regard to immigration. Within the last few years the change has been rapid and fundamental, and thousands of men and women today hold views diametrically opposite to those they entertained five or ten years ago. Many of these people are now inclined to blame former governments because they adopted and pursued policies which do not find favor today, forgetting that they themselves believed in and approved policies then which they condemn now.

Not so long ago Federal Governments were applauded or criticized according as they succeeded or failed to increase the volume of immigration into this Dominion. Almost without a dissenting voice, organized labor alone perhaps excepted,—the people of Canada urged and demanded aggressive policies of immigration in order to increase Canada's population, develop its resources, fill up the vacant spaces, and assist in carrying the Dominion's heavy burden of debt. Immigration was held to be necessary to provide business for our railways, and to reduce the per capita cost of government, schools, and those many and various other things which were demanded. And all governments tried to supply what the people as a whole wanted.

Now all this has changed, and from all parts of the country there is an insistent demand that immigration be restricted; if not altogether stopped, and just as there were extremists in days gone by who favored a wide-open-door policy of unrestricted entry, so now there are extremists who would prohibit all and sundry from entering the portals of the Dominion. As is true of almost every question, there is in this matter of immigration a sane and safe middle course.

Generally speaking, the opinion now prevails that all forms of assisted immigration should cease, or at all events should be strictly limited to individual cases of members of a family desirous of coming to Canada to join relatives already established here. The view is also held that there should be no more large movements of groups of people to be settled in communities. It is practically assured that these policies will be adhered to.

Canada's immigrant policy has for some considerable time been one of admitting only those, mentally, morally and physically sound, who proposed to go upon the land, while those of the artisan and unskilled labor classes were discouraged. But the difficulty has been to keep those admitted on the land. Many having but little capital and meeting with initial discouragements and difficulties, have flocked to the cities in search of work, with dire results to themselves and to the urban communities thereby affected. How to overcome this problem, made more acute in recent years by the introduction of a large scale of labor-saving farm machines, as, for example, the combined harvester-thresher and the motor truck, and the consequent elimination of the need for thousands of farm hands, is still in acute question.

It is now suggested that immigration should be left to the Provinces rather than continue as one of the major functions of the Federal Government, and that each Province should decide who, and how many, to admit in any one year. But here another difficulty presents itself. Provincial requirements and policies may be far from uniform. One Province may adopt a policy amounting almost to exclusion, while another is much more lax in its policy governing immigration. But once an immigrant is admitted into Canada by any one Province, there is no power to prevent such immigrant from moving to another part of the Dominion. There must of necessity be some understanding reached by the Provinces if any effective restrictions are to be imposed by them, if the present plan of a central Dominion control is superseded.

The whole problem is one calling for the most careful investigation and study. It involves not only economic questions, but social, racial, religious, and other questions, each and every one presenting difficulties in the way of arriving at common understanding. It is a question that calls for the exercise of patience, goodwill, co-operation.

Game Sanctuary Closed

The Thelon Game Sanctuary, east of Great Slave Lake, consisting of 35,000 square miles, has been closed to both native and foreign hunters in order to protect the last known herd of Musk oxen, which are said to number around 250, and have their habitat within this area.

Adds To Consumer's Bills

Milk Dealers Lose Millions Annually Through Unretained Bottles

Do you use milk bottles for jam, kerosene, paint, and other household articles? Perhaps you use them for flower vases, or in numerous other ways. If they get too dirty, probably they are thrown out with the ashes or trash.

Such a procedure is far too common, says the Bureau of Dairy Industry, United States Department of Agriculture, and adds materially to the consumer's milk bill. The annual milk-bottle bill of the nation is close to \$30,000,000, the bureau says, and at least \$20,000,000 of this is lost occurring after the bottles leave the dairy. Last year in one large city, junk men picked off the city dumps 20,000,000 milk bottles which had been thrown away. These bottles had a value of over \$1,000,000.

SWOLLEN JOINTS

GIVE GREAT PAIN

The Trouble Can Be Removed By Enriching the Blood Supply

The chief symptom of rheumatism is pain. Cold or damp weather may start the pain, but it is known that the trouble is actually due to weak, watery blood. The most successful treatment is the one that restores the blood to a healthy, normal condition. Many rheumatic people suffer pains that could be avoided if they would only enrich and purify their blood by taking Dr. Williams' Pink Pills. It is not a new, rich, red blood and in this way drive out the poisonous secretions which cause rheumatism. That this is the case is shown by the statement of Mr. A. Oickle, Milton, N.S., who says:—"About two years ago I had a very severe attack of rheumatism. The trouble located chiefly in my hips and legs, the joints swelling so badly that often I would have to sit up in a chair, being unable to lie down. The pain at times, was agonizing. Finally I decided to try Dr. Williams' Pink Pills and these I found to my great satisfaction, just the thing needed to relieve me of the misery I was undergoing. Under the use of the pills the swelling subsided, the pain disappeared, and there has not since been any return of the trouble. I am now able to do for what Dr. Williams' Pink Pills did for me, and hope some other sufferer may benefit from my experience."

You can procure these pills from any dealer in medicines or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Caramel Fudding

A Delicious Dessert That Practically Makes Itself

One of the most delicious desserts one can serve, and it is one especially loved by children, can be made practically to make itself. It is called Caramel Fudding. Here it is:

Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats, and whipped cream. To serve individually, cut in slices, garnish with nut meats, and whipped cream—or use plain unsweetened cream, with or without garnish.

B.C. Telephones

Improvement and Extension Of Service Is Noted

Within two months by the use of a new B.C. telephone all cable route, Vancouver and Victoria will be connected by an additional 35 speech channels. Two direct telephone services will be in operation between Vancouver and Calgary this spring.

Before the end of this year the whole of British Columbia lying to the south of the C.P.R. main line will be linked with high grade telephone communication, extending from the Crow's Nest to Vancouver and Victoria.

Sweet and palatable. Mother Gray's Worm Remedy is acceptable to children, and it does its work surely and promptly.

Beethoven was only 12 years old when he became organist in a church at Bonn, Germany.

Grandmother Knew — She Used Minsard's.

Glass That Bends

Nearest Approach Is a Glass Substitute Called "Windolite"

There is a fortune awaiting the man who invents a flexible glass. This stands perhaps at the head of the list of necessary things the world is waiting for. So far the nearest approach is a glass substitute called "Windolite," invented in England, and put on the market there in 1917, and now sold in Canada. "Windolite" consists of a cellulose acetate compound reinforced with fine, specially galvanized wire mesh. It is so dipped in the solution as to coat the wire mesh thoroughly on both sides and the resulting substance is therefore completely waterproof, airtight, flexible and practically unbreakable.

One advantage this substitute has over ordinary glass is that it freely transmits the valuable ultra-violet rays of the sun. This quality makes "Windolite" invaluable for a wide variety of uses where real sunlight is necessary to health and growth such as the rearing of young chicks and turkeys in confinement. Ordinary glass shuts out these rays, and yet they are vitally important to human beings, as well as plants, poultry and live stock. Another surprising thing about this glass substitute is that it is cheaper than ordinary glass, and yet extremely light in weight and very strong.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attack and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Old Marriage Contract

Drawn Up By Egyptian Husband and Dated 590 B.C.

Marriage contracts were in vogue among early Egyptians, according to tablets found in the Nile region by explorers. The earliest known nuptial contract dates from 590 B.C., the terms of which were drawn by the husband. It has been translated as follows: "Since God willeth that we should unite one with the other in a righteous wedlock, after the manner of every free man and every wise woman, therefore I have given thee four dollars in gold as a bridal gift. And for my part I will not neglect thee. Nothing shalt thou put forth without a cause, having legal ground. But should I wish to put thee forth, I will pay 17 dollars for the matter."

COLDS

Keep Away

Tonsillitis
and
Sore
Throat
Relieved

Vaporize Catarrhazone in boiling water and inhale the medicated vapor. You get almost instant relief from Colds, Coughs or Catarrh. The throat and nostrils are cleared of discharges and once again you breathe in a natural way. For safe, effective healing action use Catarrhazone.

Catarrhazone

A Ten-Minute Relief!

Product Of One Seed

Nine ounces of dried seed and 1,278 blooms from one nasturtium seed, is the proud record of Gordon Thomas, Royston, B.C. Mr. Thomas saved the seed from plants grown in his own garden in 1928, and on March 10, 1929, it was planted in a favorable location on the south side of his house. The plant was given special attention and bloomed continuously until November 11, and grew to a height of 14 feet 4 inches.

Deaf Hear Again

Through New Aid

Earpiece No Bigger Than Dime Wins Enthusiastic Following Ten-Day Free Trial Offer

After twenty-five years devoted exclusively to the manufacture of scientific hearing aids, the Canadian Acoustical Ltd., Dept. 40, at Richmond B.C., has perfected a new model Acousticon that represents the greatest advance yet in the treatment of deafness. This latest Acousticon is featured with a device which is so simple and so effective that it transmits to the ear absolutely true sound for 10 days to any one person who may be interested. And a letter will bring one of these remarkable aids to your home free of charge and convincing test. Send them your name and address today.

They may be dumb, but a rabbit never marries a wildcat, and a crow never ruins its health digging worms for a bird of paradise.

Needless Pain!

Some folks take pain for granted.

They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

ASPIRIN
TRADE MARK REG.

Value of Clean Seed in Ensuring Successful Crop Returns Cannot Be Too Highly Stressed

According to final returns just issued by the Dominion Bureau of Statistics, crops throughout the greater part of Canada in 1929 were generally below the average and the seed supply for next spring, in consequence, assumes even greater importance than usual. In not a few instances a complete new supply will have to be purchased and in practically every case new requirements in some lines will be advisable. Notwithstanding, a host of evidence from every experimental farm in Canada, and the advice of all leading agriculturists, the bulk of the seed grain sown in this country receives little attention in the way of cleaning and grading. The Dominion Government has gone to very considerable expense in establishing a string of seed-testing laboratories from the Atlantic to Alberta. At these places up to three samples of farmers' seed will be tested free of charge. But in spite of all efforts to get seed tested but a fraction of that used every spring is examined.

Time and again indisputable evidence comes to hand that weed seeds in huge quantities are actually being sown by farm owners themselves. The seed drill survey conducted in Ontario last season and similar surveys throughout other parts of the Dominion in recent years have proven this beyond dispute. The greater part of the seed grain used, if examined in the seed laboratories, would not even reach the lowest of all official grades, No. 3. It is a well-known fact, that tilled, clean, plump, well-graded seed will outyield the ordinary variety by a margin sufficient to cover five or six times the extra cost of such seed. Not only will graded seed produce more vigorous plants but the space occupied by the weeds sown with the ordinary seed is used to produce valuable grain or clover. In not a few cases where very dirty seed is used actually from ten to twenty-five per cent. of the land sown is taken up in the production of weeds, and of the crop from such land these same weeds account for from ten to twenty-five per cent. of the harvesting, threshing, transportation and other costs. No business can carry an excessive loss like this and proper seed farming is not an exception to this rule.

1930 To Be Year Of Progress

Large Developments Are Expected In Canada During Present Year

"Developments during the past indicate that 1930 will be one of enlarged progress," said G. G. Ommamey, director of the Department of Development, Canadian Pacific Railway, while in Winnipeg the other day in company with John A. Dresser, consulting geologist. Major Ommamey emphasized the remarkable increase in mineral production, water power installation and the improved conditions in the forest products industries.

Temperance Reformer—"You put down your money and the publican gives you a glass of beer. But it does not stop there. He keeps on giving you more beer until—"

A Voice—"What's the name of the pub?"

"You should take this model, madam, it suits your complexion so well."

"But I am not really pale—it is the price that makes me pale."—Wahro Jakob, Berlin.

Merchant Adventurers

Personal Touch Is Necessary To Understand Foreign Markets

The foundations of British foreign trade were laid by men who were adventurers as well as merchants. They went out into the world and saw with their own eyes the manners and customs and needs of their customers. What seems to be wanted is a more general revival of that adventurous spirit. Only by the personal touch that comes of actual visits to foreign markets can there be a proper understanding of the mentality of potential customers and of the points in which British methods of salesmanship, as compared with those of foreign rivals, may call for amendment. — London Times.

(By Annebelle Worthington)

3253

A printed silk crepe with subtly moulded bodice and definitely new treatment in flared skirt fulness. The front extends into a band that reaches to neckline, giving the figure charming length. Horizontal tucks nip the front waistline. It leans toward the more feminine mode in softly pleated neckline and sleeve ruffles of chiffon.

It's a dress so entirely suited for everyday needs to wear for shopping and then to a hurried luncheon or bridge engagement. It can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

You'll like Style No. 3253 quite as well in black wool crepe with the pleated ruffle in eggshell crepe de chine.

Emerald green flat silk crepe self-trimmed is youthful choice. Navy blue faille silk crepe with jade green chiffon ruffles is sportive and yet correctly smart for office or classroom.

Pattern price 25 cents. Be sure to fill in size of pattern.

Growth Of Wheat Pool

Membership Represents Over Fifty-Five Per Cent. Of Farms In Western Canada

The total combined membership of the three provincial pools of the Canadian Wheat Pool, as disclosed by a recent official compilation, was 138,020. According to the government census of 1926, there were 248,162 farms in Western Canada; the pool membership, therefore, represents 55.5 per cent. of the farms in the three prairie provinces. The Manitoba Pool membership has increased from 9,216 in December, 1924, to 17,935; the Saskatchewan Pool membership has grown, during the same period, from 51,268 to 80,158; the Alberta Pool membership is 38,927, as compared with 25,601 in December, 1923.

Of the 205 million bushels of wheat sold by the pool during the crop year ended July 31, 1929, over 52 per cent, or 108 million bushels were exported directly by the Pool to 90 ports in 19 different countries. The United Kingdom bought direct nearly 35 million bushels; Japan, 11 million; Belgium, 10.7 million; Holland, over 10 million; Italy, nearly 9 million; and France, nearly 8 million.

The Pool now operates 5,481 country grain elevators in Western Canada with a total capacity of 37,850,000 bushels and 12 terminal elevators at Port Arthur, Fort William, Vancouver, Prince Rupert and Buffalo, with a combined capacity of 22,967,210 bushels. Last year the Canadian Wheat Pool did a gross turnover of \$228,000,000, the largest of any business in Canada with the exception of the Dominion Government.

Grain Moves Slowly

Shipments Show Little Activity At Saskatchewan Inspection Point

Cars of grain inspected and graded at Saskatoon since this city became a general inspection point on October 15, 1929, total 7,860 cars. Very little grain is moving now, only 300 cars having been inspected during the past month.

Stocks of grain at the government elevator have been somewhat reduced, much going out to local mills. Little 1928 grain is now in store. Wheat, which at the high point showed 9,240,000 bushels in store, is now given as 2,816,180 bushels. The present amount of other grains is: Oats, 84,689; barley, 11,819; flax, 4,169; and rye, 10,860 bushels.

There are 272 plants in Canada engaged in the canning, drying, evaporating and preserving of fruits and vegetables, representing a capital of about \$34,000,000.

Great Britain Beginning to Realize That Canada Has Reached a Most Important Stage of Development

Promises Great Things

General Smuts' Doubts Whether Canadians Realize Great Future

Doubt whether Canadians realized the great future that was in store for them was expressed by General Jan Christian Smuts, former prime minister of South Africa, in a speech before the South African Luncheon Club, in London, England, on his recent visit to the Dominion and the United States. "There is something growing up in the Dominion which promises very great things for the British commonwealth of nations," he added.

The famous soldier and statesman said he found his visit to Canada had been most exhilarating. He had seen a spirit of hopefulness and optimism which was most refreshing. In the course of a few generations Canada would be as great as the United States was today he added. "It is a great thought that it will be possible for Canada to realize her very great destiny right inside the British commonwealth of nations, without any thought of severance," he concluded.

Multiplicity Of Cars

More Than Two Million Motor Vehicles Added To Number In Use In U.S. In 1929

During 1929 more than two million motor vehicles were added to the number in use in the United States, a compilation of registration figures by the magazine "Motor," made public recently discloses.

Passenger cars and trucks now in use total 26,562,713, as compared with 24,479,648 a year ago. The increase in registration was 8.5 per cent. over 1928, as compared with an increase of 5.9 per cent. in 1928 over 1927.

Passenger cars registered number 23,262,843, an increase of 8.8 per cent. over 1928, and trucks 3,229,870, an increase of 6.1 per cent.

Gives Valuable Book

A valuable present was made to the city of Quebec recently, when W. P. Chittenden, of London, presented the city with a bound volume of Royal magazines for 1769. This volume contains several interesting facts about Quebec, and also of General Wolfe, who captured Quebec and brought Canada under British rule.

Noted Golfer Lays Corner-Stone

THIS STONE LAID BY GEORGE S. LYON AD 1929

Before a distinguished gathering of golfers, George S. Lyon, dean of Canadian players of the Royal and Ancient, declared the cornerstone of the clubhouse of the Royal York Golf Course "well and truly laid" recently. The palatial \$175,000 structure will command an unsurpassed view of what Mr. Lyon says "will be one of the sportiest courses in the Dominion." Left to right are shown: R. Home Smith, who donated the land for this fine course; George S. Lyon, chairman of the advisory committee of the Royal York Golf Club; and Superintendent Groot, representing the Canadian Pacific Railway which is erecting the clubhouse, of which the architect's conception is also shown in above picture. It will have 35 bedrooms as well as the usual conveniences and will be completed in time for the official opening next May.

Saskatchewan Wheat Champion

Won By Geo. Avery, of Kelso, At Recent Marquis Wheat Exhibit

The Saskatchewan wheat championship for 1930 went to George Avery, of Kelso, at the recent exhibit for a sample of Marquis wheat, while J. W. McGhie, of Marquis, took second place. Curiously enough, this award reverses the Chicago placing where Mr. McGhie was third and Colonel Avery fourth. The latter also took the oats championship with a sample of Victory oats weighing 47½ pounds to the bushel.

Artist: "Do you think the great American novel will ever be written?"

Author (sighing deeply): "It will not only be written—it will be rejected."

"Why so sad?"

"Such bad luck! I married a film star thinking she would soon divorce me and she is really true."—Nagels Lustige Welt, Berlin.

Balance Cash on Hand and actually counted by me as date of Audit..... 17 07

The above Cash on Hand at Dec. 31st, 1929, was deposited on 18th Jan. 1930. I have audited the accounts of the Town of Stony Plain, Alberta, for the year ending 31st Dec., 1929, and have compared the said accounts with their relative vouchers and certify that in my opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Town, according to the best of my information, the explanations given to me, and as shown by the records subject to any qualifications mentioned under General Remarks by Auditor.

GENERAL REMARKS BY AUDITOR.—All books and vouchers were found in good order. I would suggest that when issuing checks to School Districts for collection of taxes, either a check be made out for the full amount including commission or two checks be issued, the check issued for the commission being endorsed over to the Town and put thru the usual channels. As the amount of taxes now owing against the lots held by the Town, exceeds in most cases the payable sale value, there would appear to be no real reason or advantage in adding taxes in future years.

Dated at Stony Plain, Alta., this 15th day of January, 1930.

W. E. H. LEWIS, Auditor, Stony Plain.

Here and There

(459)
The new north wing of the Empress Hotel, Victoria, western outpost of the Canadian Pacific Railway chain of hotels across Canada, was opened recently in a handsome building over by Hon. J. P. Tolmie, Premier of British Columbia, and attended by over 1,000 visitors including civic officials. It represents more than 150 additional rooms and a number of beautiful decorated suites including vice-regal, Japanese, Italian, Spanish and French, and was built at a cost of approximately \$2,000,000.

Progress on the Princess Joan and Princess Elizabeth, Victoria—Vancouver might scarce boats of the Canadian Pacific Railway, has been so rapid that Captain C. D. Norcross, manager of the B. C. Coastal Steamship service has announced that the trial trip of the first vessel to be ready will be March 25. Each ship has five decks and berthing capacity for 481 persons.

In the great Chinese province of Manchuria, equal in area to Germany, Marshal Chiang Kai-shek, 28-year-old war hero, is experimenting with education on a colossal scale to bring his people to peace and progress, is the founder of John Nelson, former publisher of the Vancouver World, who recently landed from the Empress of Russia at Vancouver on his return from the Orient.

Great industrial development throughout western Canada which in the last two decades has brought the annual gross value of manufactured articles produced in the western provinces to \$500,000,000 was described recently by John F. Sweeting, industrial commissioner of the Canadian Pacific Railway, in an address to officers of the company at Winnipeg. "Those of us who have lived through and watched western Canada develop during the last 20 years are assured as to the future of that part of the Dominion," he said.

"Railway conditions as they exist in Canada to-day are readily comprehensible and we are in the fortunate position of being able to assure our shareholders that the decreases represent the result of an extraordinary combination of conditions and that the railway has not failed in efficiency or otherwise," stated E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address recently at the Royal York Hotel, at the annual meeting of the Commercial Travellers' Association of Canada. Mr. Beatty added that the situation in 1929 was exceptional and not likely to be repeated in subsequent years.

The North German Lloyd Company of Montreal is arranging for a trip of German farmers to Canada next summer with a view to investigating Canadian conditions and agricultural opportunities. The trip will commence with a visit to the Annapolis Valley, stopping at Kentville to view the Experimental Farm and the orchard country at Nova Scotia.

The Department of Lands and Forests reports that 1475 moose and 1335 deer were killed in Nova Scotia during the hunting season of 1929.

New Brunswick's potato crop for 1929 will have an official valuation of at least \$5,000,000 placed on it, according to intimations of the Provincial Department of Agriculture officials, when the final report on agricultural conditions for the crop season was issued recently.

Open Seasons for Game

Following are open seasons for game—
Ducks and Geese—Sept 16 to Dec 14th
Hungarian Partridge—Oct 1 to Nov. 30.
Prairie Chicken and Partridge—No open season.
Deer—Nov 1 to Dec 14
Otter, Nov. 1 to May 1.
Beaver, No Open Season.
Muskrat—Between North Saskatchewan and Tp. 91, March 15 to April 15

Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

NO CHANGE IN POLICY OF POOL IS EXPECTED

Winnipeg.—Shadow of falling wheat prices still hung ominously over the Winnipeg market, undisturbed by prairie governments' declaration of financial support for the wheat pools. Meanwhile, thousands of western farmers awaited the end of a period of drastic price reductions characterized by pool officials as unwarranted by basic supply and demand conditions.

Resources of Manitoba, Saskatchewan and Alberta stood pledged as guarantees for the 15 per cent margin demanded by Canada on banks on loans to the co-operatives—but wheat values slipped downward more than a cent and a half per bushel.

On the cash market, No. 1 Northern was quoted at \$1.20 1/4, more than four cents below last year's figure—and the world crop this year is estimated at 533,000,000 bushels less than that of 1923—and 132,000,000 bushels less than the five-year average from 1924 to 1928.

Already \$1 per bushel has been paid out to members of the prairie Wheat Pools, and values had been generally regarded as approaching closer than ever before to the 15 per cent protective margin above loans. It is pointed out, however, that the \$1 per bushel payment in no way can be considered the Pools' indebtedness to the banks. Under the Pools' financing system, bank loans are reduced automatically as sales are executed.

Had the western governments not come to the aid of the co-operatives—and had the market been depressed to "substantially lower levels"—the Pools would have been forced to liquidate a part of their holdings on markets already depressed, according to a statement by George McIvor, general sales manager of the Canadian Wheat Pool. This, he points out, would have had disastrous consequences, not only to western farmers but to the business structure of the entire country.

"It was with a view of avoiding such a catastrophe in the event of a further drastic break in the market that the Pools requested and received immediately the support of the governments of Manitoba, Saskatchewan and Alberta," Mr. McIvor explained.

"The three provincial governments accordingly forwarded a letter to the chairman of the banks' lending committee, agreeing to guarantee their respective provincial Pools' share of the Canadian Pools' margin."

"Uncertainty arising out of the stock market crash and the probe brought to the investing public a loss of confidence which in turn depressed the Canadian grain markets during the past few weeks," Mr. McIvor mentioned.

"As a result of these conditions," he stated, "grain in volume out of all proportion to the present actual demand has been offered on our commodity markets, which has naturally brought about a drastic reduction in prices not warranted by basic supply and demand conditions."

No alteration in Pool policy will result from the governments' act, according to Mr. McIvor. He emphasized that the Pool would make no attempt whatever to hold up wheat sales when there was a demand for the actual wheat, but would continue to offer wheat for sale whenever there was a demand from domestic mills or foreign buyers and would refrain from offering in the absence of demand or on depressed markets.

Receives Air Speed Trophy

Great Britain Becomes First Possessor Of This Award
Washington, D.C.—Sir Esmé Howard, the British ambassador, received the L. S. Thompson trophy, the symbol of speed supremacy in the air, from Senator Hiram Bingham, of Connecticut, president of the National Aeronautic Association.

Great Britain becomes first possessor of the award through Squadron Leader A. H. Orlebar's feat of speeding 357,723 miles an hour in last fall's Schneider cup race.

W. N. U. 1924

Attempted Assassination

New President Of Mexico Is Wounded In the Jaw

Mexico City.—Pascual Ortiz Rubio, new president of Mexico, was wounded in the jaw by a would-be assassin who fired on him a few hours after he had been sworn in as chief executive.

It was announced at the hospital that the president's condition was not serious. The bullet was removed.

Six shots were fired. Two other members of the president's party were struck, the president's wife being grazed by a bullet and his little niece, Opelia Ortega, sustained a slight wound. A bystander was also hit.

The assassin was arrested. Broken glass from the automobile windshield showered the rest of the party which included a chauffeur, the president's secretary and the president's sister-in-law, Senora Ortega, whose daughter was hurt.

Motor cycle police pounced upon the shooter and took him into the national palace. The prisoner gave his name as Miguel Flores, aged 25. He acknowledged that he was an adherent of Jose Vasconcelos, candidate of the anti-re-electionist party who was defeated by Ortiz Rubio for the presidency.

Heavy Mail Carried By Air

Figures For Last Year Show 435,163 Pounds Hauled

Ottawa, Ont.—A total of 435,163 pounds of postal matter was flown over the various air mail routes operated during 1923, according to figures compiled by the post office department. These figures, it is pointed out, may be amended in an upward direction when more complete information is available.

From Sioux Lookout to Narrow Lake, in Northern Ontario, and return, the amount of mail carried was greater than that transported over any other single route. The poundage over this route was 83,404. The Montreal-Rimouski route, operated for only seven months of the year, came second with 63,672 pounds. On the trip made from Edmonton to Alkaidiv, with stops at many intermediate points, the weight of mail carried was 16,770 pounds.

Figures show that the air mail is used most in out of the way places where far greater weights are carried than over the well established daily services in districts where the gain in time is not so significant.

Will Remove Reply

Member For West Lambton To Move Reply To Speech From Throne

Ottawa.—It was announced from the office of the prime minister that the motion for an address in reply to the speech from the Throne, at the opening of the Dominion Parliament, will be moved by Ross W. Gray, Liberal member for West Lambton. The seconder will be Vincent Dupuis, Liberal member for Laprairie-Naperville.

Both the mover and seconder are comparatively new members of the House of Commons. Mr. Gray, who succeeded W. T. Goodson, as representative for West Lambton, sat in the House last session. Mr. Dupuis is the successor to the late Roch Lanoie, and will take his seat for the first time at the coming session.

Elected By Acclamation

Hon. T. A. Crerar Will Represent Brandon In House Of Commons

Brandon, Man.—Hon. T. A. Crerar, Minister of Railways and Canals in the Federal Cabinet, has been elected by acclamation as member for Brandon in the House of Commons.

Mr. Crerar, formerly president of the United Grain Growers, Limited, succeeds Hon. Robert Forke as member for Brandon.

Mr. Forke retired from the House and was appointed to the Senate.

Radio Broadcasting Bill

Ottawa, Ont.—The bill on radio broadcasting which will be presented to Parliament will follow very closely the recommendations of the royal commission on broadcasting. Hon. P. J. Caudin, Minister of Marine and Fisheries, whose department has supervision over broadcasting, confirmed this recently.

NAVAL CONFERENCE OFFICIAL

Sir Maurice Hankey, who was elected secretary-treasurer of the naval conference in London, England.

Commissioner's Body Cremated In England

Private Ceremony Attended By Hon. J. L. Ralston

London, England.—The body of Hon. P. C. Larkin, Canada's high commissioner in London, who died suddenly on Feb. 4, was cremated privately at Golders Green.

Col. the Hon. J. L. Ralston, Canadian Minister of National Defence, was one of the small group attending. Eight years almost to the day from the date of Mr. Larkin's entrance to the high commissioner's office a memorial service was held at Christ Church, Lancaster Gate, adjoining the Larkin residence. The Bishop of Kensington conducted the service.

When Canada House was opened by His Majesty a few years ago, a new register for visitors was installed. The first entry reads: "Peter Larkin, Toronto," and in the column where the visitors record the probable length of their stay in London appears the word "indefinite" in Mr. Larkin's handwriting.

Want Embargo Lifted

Britain Anxious To Export Potatoes To Canada

London, England.—Potato growers in the British Isles, particularly in Ireland, are suffering from a market glut, while the price of potatoes is high in Canada, a deputation of members of parliament emphasized when they interviewed Rt. Hon. Noel Buxton, Minister of Agriculture. They asked the government to endeavor to induce the Canadian Government to lift the embargo against import of British potatoes to Canada.

Little Lady Digs Igloo

She has dug herself a snow cave just outside the Chateau Frontenac, and she expects to have the time of her life at the Winter Ice Pageant at Quebec City this month. Not that there will be anything there to compare with her own igloo—not even the Chateau Frontenac itself—in her opinion, and fancy skating, ski-jumping and joring, snow-shoeing, dog-mushing and all the varied winter sport amusements that Jack Strathdee, director of the Pageant, will invent, do not stack up one-two-three with this real honest-to-goodness home in the snow. Which goes to prove that there are attractions for all tastes at the Pageant and no-one will go away unsatisfied.

Proposed Branch Lines

C.P.R. Will Have Five Bills Before Parliament At Next Session

Ottawa.—The Canadian Pacific Railway will have five bills for branch lines before parliament this session. The bills provide for the construction of approximately 160 miles of lines distributed among three provinces—Alberta, Saskatchewan, and Quebec. These are as follows:

From a point on the Taber subdivision of the C.P.R. near Tempest, Alberta, southwest for approximately ten miles.

From Dunsmuir, Saskatchewan, on the Swift Current southeasterly branch of the C.P.R., southwesterly for a distance of about 50 miles.

From Duval, Sask., on the Pleasant Hills branch easterly for a distance of some 30 miles.

From a point in townships 46 or 47 east of Glenora, Sask., in an easterly direction to Shellbrook.

The fifth line is a short one in the parish of Ile Perrot, Vaudeville County, Quebec.

The bills will ask for authority to issue securities in respect to these lines to an amount not exceeding \$50,000 a mile.

Old Age Pensions

34,450 Persons Now Receiving Government Pensions In Canada

Ottawa.—There were 34,450 persons in Canada receiving old age pensions on December 31, 1923, according to department of labor figures issued recently.

It was pointed out that these pensioners do not include aged persons from the provinces of Quebec, Nova Scotia, New Brunswick, and Prince Edward Island, which have not yet adopted the old age pension scheme.

Ontario leads in number of pensioners with 19,300; Manitoba is next with 4,891; British Columbia has 4,407; Saskatchewan, 4,335; and Alberta, 1,517.

Better Radio Reception

Decrease In Sun Spots Should Help the Radio Fan

Toronto, Ont.—Radio reception should improve during the next few months, according to the report of W. E. Harper, Victoria, retiring president of the Royal Astronomical Society of Canada, which was read at the annual "at home" of that organization here. Mr. Harper based his assertion regarding radio reception on the fact that it is poorest when sun spots are brightest.

H. R. Kingston, London, was elected president of the society, and J. S. Plasky, Victoria, was chosen honorary president.

WILL ADVOCATE REDUCTION OF MILITARY FORCES

London, England.—An international disarmament conference dealing with land as well as sea forces after the five-power conference has been completed, was predicted by Premier MacDonald.

The Prime Minister, replying to a question as to whether he intended calling a conference of the great powers with a view to a reduction of military forces, pointed out that the disarmament problem, including land forces, had been under careful consideration by the League of Nations for some time.

"I hope that at the conclusion of the five-power conference a further meeting of the preparatory commission on disarmament will be held which will enable the next assembly of the league to arrange for summoning an international disarmament conference," he said.

Abolition of submarines will be favored by Great Britain at a public plenary session of the naval disarmament conference which will be held next week.

The highest authority stated that Great Britain, the United States, and Japan expected to reach a tentative agreement within a few days for reduction of capital or battleships contained in these countries' navies.

This source stated the U.S. had submitted definite proposals to Great Britain and Japan. While the details were withheld it was understood the proposed reductions would show the 5-5-3 battleship ratio established at the Washington conference. It was said, however, that the proposed compromise from the three nations would be only tentative, the United States contending that it was contingent upon the settling of the cruiser question.

The general problem of battleships is being negotiated now between the delegations of the three countries. The general attitude of the three delegations on chiefs is said to be that there are prospects of rapid acceptance, although thus far there is no agreement between any two.

The British capital ship total now stands at 20. The United States has 18 of the big ships and the Japanese ten. These limits were set by the Washington conference. Members of the French delegation expressed their approval of the proposed agreement and said they would be in accord with any such development.

Manitoba Telephones

Government May Spend About Six Million Dollars On System Expansion

Winnipeg.—Plans for capital expenditure of about six million dollars in providing a 10-storey office building and a great system expansion during the next three years by the Manitoba Telephone System were contained in the annual report of the system submitted to the legislature by Hon. W. J. Major, attorney-general and minister of telephones.

Proposed extensions include installation of the service into the mining districts of northern Manitoba, where already a great part of the work has been completed.

An accumulated deficit of over \$884,000 in 1921 had been entirely wiped out, according to the report, and in its place there was a surplus of \$155,325. Total revenue for 1923 was given at \$3,840,784.96 and net earnings \$281,196.56.

Designs As Liberal Leader

Edmonton.—As forecast by press rumors, Captain Joseph T. Shaw, provincial Liberal leader and provincial Liberal member for Bow Valley, on Wednesday afternoon in the legislature announced his resignation as leader of the provincial party. He will, however, continue as House leader of the party until the end of the present legislative session.

Wins Dog Derby

Ottawa, Ont.—Finishing the 100-mile event with a total elapsed time of eight hours, 13 minutes and 23 seconds, Emil St. Godard, of the Pas, Man., won the first annual Ottawa international dog derby here.

The prison population of the United States is a little over 90,000.

Holborn Happenings.

The U. F. masquerade on Friday was a great success, the prize winners being

Ladies, Miss H. Wibray 1, as tipsy; Mrs. R. Washburn 2, as Harem; Mrs. R. Larson 3, as Pierrette. Comic, Willard Washburn, as Dutch Lady.

Gents, Roy Alton 1, Indian Chief; Miss Lillian Quesnel, Mexican Gent; W. M. Washburn, Uncle Sam; Comic, Val Kulak, Cat.

Owing to the blizzard Sat. Mr. Mackenzie from Wheat Pool, and Mr. Claypool from Livestock Pool were unable to attend the meeting called here Sat. night. We are looking forward to have these gents here at a later date

Carvel Clippings

There will be a big concert next Sat. night at Ukrainian hall, when the singing of folk songs will be a feature.

The Shovel Brigade, headed by Reeve Howat, was in action Sunday morning, working on the five foot snowbank opposite Mat Stecyk's.

Among the prominent people who attended the Coyes wedding was Mr. P. Pyrmack, Pete was home here on Tuesday.

The S. S. Board is advertising the sale of Sw. 17-53 2w5 to be held Wed. March 5.

Hansen's Corners.

The returning officer is going to have a busy time Sat. next recording nominations for Councillor, as there is said to be just a few of the old settlers who will not be running. There should be an opportunity for the sale of shock absorbers to some of these on election evening.

Chief "Big Jim" is planning a trip to Batff.—after election day.

Your correspondent is credibly informed there is a very persistent rumor to the effect that there is the possibility of Mr. Don McDonald being a candidate for councillor.

NOTICE.

IN THE ESTATE OF BERTHA A. BRAUNT, late of Stony Plain, in the Province of Alberta, Widow, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above named Bertha Braunt, who died on the 27th day of December, A. D. 1922, are required to file with the Solicitor for the Executor by the fifteenth day of March, A. D. 1930, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which shall have been brought to his knowledge.

DATED at Stony Plain this 28th day of January, 1930.

GEORGE J. BRYAN,

Solicitor for the Executor,

The Domestic Animals Act (Municipalities)

Sale and Redemption of Impounded Animals.

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that 1 Brown Gelding (aged) weight 1450 pounds, white star, white hind feet, no brand, was impounded in the pound kept by C. Coleman; located on the SW 11-52-3-5; Duffield, Alberta, on Monday 16th day of Dec. A.D. 1929, and that the said animal was sold on the 27th day of Dec. 1929, to W. Burton of Duffield, Alta., and that the said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of the above-mentioned animal.

For information apply to the undersigned.
E. H. PIDGEON,
Sec. Treas. of the Municipality of Inga No. 520.
Postoffice, Stony Plain

Hazel A. Lundy vs. Charles H. Milton.

To the above named Defendant, Charles Henry Milton.

Take notice that this action was on the 3rd day of February, 1930, commenced against you and the plaintiff by her Writ of Summons upon a Mortgage dated the 13th day of March, 1925, made by you in favor of Frederick William Lundy and the plaintiff claims that there is now due under the said Mortgage the sum of \$233.00, and the plaintiff claims that the said Mortgage may be enforced by foreclosure.

AND Take Notice that the Court as by Order dated the 3rd day of February, 1930, authorized service of the Writ of Summons on you by the insertion of this Notice in The Stony Plain Sun.

And Further Take Notice that you are required within 25 days after the insertion of this Advertisement to cause to be filed in the office of the Clerk of the District Court, Judicial District of Edmonton, a Statement of Defence or Demand for Notice and that in default of your so doing the plaintiff may proceed with this action and judgment may be given against you in your absence.

GEORGE J. BRYAN,

Solicitor for Plaintiff.

Mighty Bridge Spans Saskatchewan

Faith in Canada's northern areas of resource becomes reality in the Canadian Pacific Railway bridge now nearing completion at Nipawin, Saskatchewan. Designed to take the heaviest locomotives likely to be built, this magnificent structure, a little more than 1907 feet long, spans the Saskatchewan River at a point leading from the more densely agricultural section into mining and timber districts of recognized magnitude. It will afford ready access to still unexploited farm lands and direct transportation possibilities for those who will explore and develop mineral areas rich in promise. This new gateway to the North required more than 834 million pounds of structural steel in its construction. Vehicular traffic will be carried in the space between the ironwork and Canadian Pacific trains will travel on the top. (1) shows the pile-driver at work in 1925-1929. (2) In picturesque setting, the main piers of the structure are viewed from Ferry Hill in August 1929 before the steel arrived. (3) The west towers almost finished, December 15, 1929. (4) Looking across the completed bridge on the vehicular roadway which meets the Government highway at either end.

CHAPTER I—Continued

The presence of the little shop in the front room did not cheapen the old house in Charmian's loving eyes. As a child the contents of the high-boy drawers had fascinated her. Now she regarded them as something that helped to give her grandmother a few comforts. Had any one suggested that they might be better off in smaller place, she would have been as horrified as would Grandma herself. The view from her own window amply repaid her for the care of so large a room. With an unerring sense of beauty she clung passionately to the fine pieces of old mahogany with which her great-great-grandfather had furnished his family mansion, smiling with inward scorn at the golden oak or mission furniture that was the pride of some of her friends and neighbors.

Grandma, it is true, rarely lacked this adoration of the antique. She gazed rapturously at the mal' order catalogues from Chicago, and was particularly enamored of an ornate oak hat tree; while Charmian, knowing that there was no possibility of her grandmother-making such a rash purchase, smiled indulgently, and let the old lady dream.

"If only the school committee decides to give me District Four!" she sighed a dozen times a day, and planned how every penny she could save should go toward beautifying the old home. Even as it was, tourists (they had such things in Wickfield now), would sometimes stop their automobiles and admire the gilded

pineapple above the door, despite the fact that its coat of goldleaf was slowly vanishing before the snow and ice of the New England winters.

Charmian had been thinking of the pineapple this very morning, and wondering what it would cost to gild it, when the doctor sat down upon the steps. As his eyes came back from the sylvan bush and met her own, she continued, almost apologetically: "I know it's too big a house for Grandma and me, but—"

"Why not take a boarder?" he broke in. "You've plenty of empty bedrooms, goodness knows."

Charmian was silent for a moment, letting the thought sink in.

"But you see," she began dubiously. "I couldn't manage the meals—not if I get the school, anyway. As it is, it's a scramble to fix a lunch for Grandma, or was when I went to Normal. If only some one wanted just a room—but there's nobody in Wickfield does, or ever has!"

The doctor seemed to be lost in thought. Then he looked up at Charmian and smiled. She made a pretty picture, there on the top of the low stoop. Her old blue linen, though faded with many washings, still did good work in bringing out the blue of her dark-fringed eyes; and her cheeks were flushed.

"A penny for your thoughts, Doctor," she said.

The old man shook his head. "They're not the sort I'd prescribe for an innocent-looking miss like you," he answered, "and yet," (a sudden twinkle appearing in his gray eyes), "I think I'll tell them. I was wondering, my dear, why some likely chap hadn't run away with you."

The girl threw back her head and laughed, adding much to the charm of an already charming picture.

"But you see," she at last asserted, "though I wouldn't breathe it to the public, there are no likely chaps in Wickfield."

"No?" questioned the doctor, frowning. "What's the matter with George K's boys? Or Jimmy Bennett? J'm's a splendid fellow, or I never knew one; and some one told me (either a little bird or Lizzie Baker), that—well—"

Charmian laughed again. "You surprise me, Doctor Howe—a close-mouthed man like you listening to gossip! But I'll admit that my statement was rather sweeping. Of course George K's boys are splendid; but they're away from home, and two of them are married anyway. As for Jim, I can't just see him in the light of a young Lochinvar. He'd never dare elope with any one, without first asking permission of his mother."

"And is filial devotion a quality to be scorned?"

Although there was mirth in the doctor's eyes, Charmian's face sobered. "Sometimes," she answered quietly, "sometimes, Doctor Howe, I think it is—when one carries it as far as Jim does. I can't imagine his asking a girl to marry him without first dissecting her with his mother. Do you think any self-respecting woman would stand for that?"

The indignation of these last words brought the doctor's eyes suddenly and disconcertingly to her.

"So you've been—dissected?"

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable prepara-

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

Charmian blushed.

"You know entirely too much," she said severely. "And anyway, I don't see how we reached this subject. We began with boarders, and—"

"Which is what I came for," interrupted the doctor. "You see, Charmian, my dear, I'm getting old."

"Not you!" laughed Charmian, and coming down from the ladder she seated herself beside him on the steps.

"Nothing truer," he went on soberly. "I find it more difficult to be routed out at night than I did once I feel more tired after a long day's work; but I'm not ready to give up yet."

"I should say not!" Charmian responded, slipping a comforting hand to the old man's. "What should we do without you?"

He smiled.

"You'd do very well—probably better than you do now. Old folks are set in their ways, and ways are changing all the time you know. But I need help. I need an assistant—a young, up-to-date assistant."

"He'd starve—in Wickfield. We wouldn't leave him near us."

"Not even to help me out?"

The girl looked up, suddenly serious.

"You really mean it, Doctor?"

"Yes, I mean it. I'm getting tired, Charmian, though I haven't been willing to face the truth. What I stopped here for, my dear, was to ask if you'd take the key to board."

"The boy? You mean a new doctor?"

He laughed at her startled face.

"Why not? You're young enough and to spare. If you can't manage his meals he could get them at the Central House, I suppose; but I don't think he'd enjoy living there. Would you?"

Charmian shuddered at the idea, but asked: "What? Will Grandma say?"

"She'll agree to anything you think best," smiled the doctor. "I know Grandma! Well, dear child, you think it over. I don't want to put any more burdens on your shoulders; but he'll pay well, and—Look here! He's coming up on Saturday. I'll drop him in casually and let you look him over."

"I shan't need to look him over if you recommend him," she said as they arose. "But of course, he'll want to look at us! If he could get his dinners down town I think I could manage the rest. As for Grandma—"

"Charmian!" called the old lady from her window, "what on earth are you two talking about this time? You tell the doctor to step in a minute before he goes. I want to ask him about my rheumatism."

CHAPTER II.

As the doctor went within at Grandma's call, Charmian lifted her little step-ladder and carried it back to the woodshed where it belonged. She was an orderly soul, but this morning it was only habit that made her pause at the door to see if everything was in its place. Her thoughts were not centered upon woodsheds, step-ladders, or the neat pile of kindlings in the corner. She was thinking of the doctor's confession about getting "tired." What he meant, of course, was getting old. The idea brought a strange, sick feeling to Charmian's heart. What would life be in Wickfield without its doctor?

The girl sank down on the side steps and looked off dreamily at the distant hills—hills so softly blue that they seemed to her imaginative vision to be wrapped in a chiffon veil. She was thinking: "Of course I'll board him, even if it's a bother. It'll help the doctor, and there's nothing I wouldn't do for Doctor Howe—just nothing."

Her eyes strayed to the orchard where a small rustic table was built beneath a tree. The doctor had built it years ago. How many times had he joined there with her at a tea party? she mused. What hadn't he done for her, and for all other Wickfield youngsters?

How he loved them—the children! It seemed to Charmian when she grew old enough to learn that this dear friend had lost his best beloved

in a cruel accident on what was to have been their wedding eve, that she and the other children of the neighborhood had been to him, in a measure, the babies that might have been his own. In those days his buggy was always full of children. "The more the merrier," he would say, stopping to take in the boys and girls on their way to school. Pandora, his old white mare, seemed of her own accord to "slow up" at sight of any small figure trudging along the road. Pandora was in pasture now, an honored boarder, and, except when the snow-drifts were too deep, the doctor travelled in a "fiver." His was the first automobile to be seen in Wickfield. Indeed, when he drove for the first time and waved a hand, Grandma Davis had almost fallen from the window in her excitement.

"It doesn't seem quite right," she said to Charmian. "What's the world coming to, I'd like to know? I declare, I wouldn't have thought it if Edward Howe!"

(To Be Continued)

Canada's Contribution

Permanent Posts Established in Polar Regions Are Invaluable

Canada is making a notable contribution to Arctic research in the establishment of permanent posts in the Polar regions, said G. P. MacKenzie, of the Canadian Department of the Interior, who led the expedition which sailed on the "Beothic" last year, exploring Arctic regions, in speaking before the Women's Canadian Club in Toronto.

"Unquestionably Canada is making a greater contribution than are the explorers who merely go in and out of the Arctic leaving no permanent establishment behind them," he said.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Overcome Sleeping Sickness

Medical Science Has Prevented Population Of French Equatorial Africa From Being Wiped Out

Medical science has prevented the population of French equatorial Africa from being wiped out by sleeping sickness. It was declared in an interview by Raphael Antonetti, Governor-General of the colony, who is now in Paris.

Although the birth rate was satisfactory, he explained, the population continued to diminish through disease, which caused more deaths than there were births. This went on until 1921, when the French officials recognized the peril and took energetic action against sleeping sickness and all tropical infections.

Little Helps For This Week

"I am the Lord, I change not."—Malachi III. 6.

Let nothing disturb thee;
Nothing afflict thee;
All things are passing,
God never changeth.
Patient endurance
Attaineth to all things;
Who God possesseth,
In nothing is wanting;
Alone God sufficeth.

—Saint Teresa's Bookmark.

Life passes, riches fly away, popularity is fickle, the senses decay, the world changes, friends die. One alone is constant; One alone is true to us; One alone can be true; One alone can be all things to us; One alone can supply our needs; One alone can train us up to our full perfection; One alone can give a meaning to our complex and intricate nature; One alone can give us tune and harmony; One alone can form and pose us. Are we allowed to put ourselves under His guidance? This surely is the only question.—John Henry Newman.

Calendar.

FEBRUARY—
14—Dance at Onoway.
15—Nominations of Inga councilors.
17—W.I.'s Valentine party.
18 & 19—The John Deere Tractor School, held in Edmonton.
21—Auction sale at Spruce Grove.
22—Inga Elections.
28—Dances, Muir Lake Community Hall.

Stony Plain and District

The H-S pupils held a very enjoyable skating party at the local rink Friday evening.

The W.I. are holding their Valentine party on Monday next.

BORN—On Friday, Feb. 7, to the wife of Rev C H Repert, a daughter.

Owing to the roads to the new Muir Lake Community Hall being so blocked that cars are unable to reach it, the dance billed for tomorrow night, the 14th, has been set over for another two weeks, and will be held the evening of Feb. 28. On the 14th a social evening will be spent by Community members.

GIRL WANTED—Christie's Restaurant.

Stony Plain Hardware, John Deere dealers, announce the holding of a Free Tractor School in Edmonton on Tuesday and Wednesday next. Special instruction will be given in the care, maintenance and operation of the tractor. See them at once about attending.

Remember the new address of the Stony Plain Pharmacy, Main St., one block south of the old stand.

GIRL WANTED—Christie's Restaurant.

Hockey News

The Senior hockey team played Concordia College on the latter's ice, the evening of the 5th. The Collegians bested them by the score of 6 goals to 4. Stony had it all their own way at the beginning, finishing the 1st period 2-0 in their favor.

The prediction that Dyson Battery team would shock the Seniors at their game on Thursday proved alas! too true. They shocked them 7 times, but the Seniors secured their usual 1 goal. "Big Sweetie" lost 2-bits betting on his team.

The Senior's manager has not yet made any arrangement for a play-off of the postponed Camrose game which was to have been played here Jan. 18.

Beatty's team did not keep their scheduled game here on Sat. night.

At the hockey game here Sunday afternoon the Onoway team beat our Juniors 3 goals to 2. The visitors came down on a bobsleigh.

The Juniors are arranging a game with St. Pats. in Edmonton, at an early date.

Juvenile League—Wednesday's game: Indians 3 goals, Saints 0. Friday's game, Saints 2, Indians 0. Tuesday's game, Esks 2, Saints 1.

There will be another good hockey game at the local rink tonight—The Millers versus The World. Three Miller families are contributing 2 players apiece—John P & Walter, George & Johnnie; Louie & Bill.

Church Services.

English Lutheran service in Stony Plain next Sunday, 7.30 p.m. United Church service every Sunday Evng. at 7.30.

Spruce Grove News

Mrs E Taylor (daughter of Mr and Mrs Ph Schwindt) died in Vancouver, Monday.

Mrs H L Morrow entertained a few friends to a bridge party the evening of the 5th.

Mr Chas Ries, Vernon, B. C., is here on a visit with his son, Mr W A Ries.

Mr A Spence of Edmonton made a business trip to the R Ferguson Smith ranch on Monday; afterward visiting the Prop. of The Golden Call Meat Emporium.

Mr Ainer Anderson, Holborn, was a business visitor here Saturday.

Mr Jacob Brox has been awarded the contract to supply firewood to Spruce Grove school.

A large attendance is expected at the meeting of the ratepayers of this M.D.; to be held Sat. next, at Winterburn Hall.

H L Morrow, manager of the Morrow Mercantile, has installed at his home a Marconi console model combination radio-phonograph.

A concert and dance will be held in Winterburn Hall Friday Feb. 14th. Forrest's orchestra will supply music.

Auctioneer D Brox has posters out for a sale in the Grove on Friday Feb. 21.

The hockey team from the Boy Scouts which play up at Stony next Sat. afternoon expect to have better luck than they had on their last game there.

Loeblich Bros. have been hauling a consignment of rough lumber to the McLeod Mercantile, which they sold to Mr McLeod recently.

Mr Dan Brox, the well-known Liberal politician, is evincing quite an interest in the forthcoming Provincial election, to be held in June—probably.

WANTED—A smart young man willing to undertake the duties of private secretary to a candidate in the next Provincial election.

Mr Louie Javorsky, who had license plates stolen from his car last fall, now has the satisfaction of knowing the culprits have been punished. Joe Moreau and Louie Gonslet had stolen a car and took Louie's plates to decorate it. They were captured in an Ontario lumber camp. The former got 2 years in the Pen, the latter 6 months in jail.

Here and There

(468)
Nine competitions, including men's and women's handicap events, men's and women's team matches and mixed foursomes will feature the program at the second annual Empire midwinter golf tournament to be played over the Colville course at Victoria, February 17-22. The E. W. Beatty trophy is the chief award for the men's and women's handicap competitions.

Miss Connie Wilson, champion fancy skater of North America and Great Britain, will take a star part in the Ice Palace at the Frontenac Winter Sports Club to be staged at Quebec February 12-13. She will be supported by the best talent of Quebec and a group of stars from Toronto, including the championship four of the Toronto Skating Club. Ottawa will be represented by the Minto Skating Club and 24 lady skaters from Toronto will perform in the "Dance Moderne" number.

The greatest fireworks display of the year, the "Pete du Nuit" exhibition at Quebec, recently one of the features of the Winter Sports season which lasts until March, consisted of a show of fireworks of Roman candles, bombs and rockets began the attack, which culminated when the heaviest were driven back by the garrison, who sent volleys after volleys of blanks crashing into the night. When the bugles sounded the "Cease Fire", the show was generally voted one of the finest in years.

The outstanding contributions that the Canadian Pacific Railway has made to the life of the Dominion in an industrial and cultural way were emphasized by E. W. Beatty, chairman and president of the road, at a recent address before the Canadian Industrial Traffic League at Montreal recently. His company, he said, had in the past five years, spent over \$40,000,000 on capital account alone and during the same period had built over 1,000 miles of branch lines. In view of its decrease in earnings, he regarded as an exceptional year not likely to be repeated in subsequent years.

A considerable increase in grain shipments from Saint John has already been established since the new year, over the entire month of December, 1929, General Superintendent, J. Woodman, of the Canadian Pacific Railway, states. Bushels of grain for December export from Saint John totaled 608,357; from January 1 to January 17, total was 651,423.

The second annual Sea Music Festival of the Pacific Coast passed into history January 19, when once again capacity houses greeted the final offerings. Outstanding among the features were the two ballad operas, "The Order of Good Men", incorporating French-Canadian sea chanteys of the 16th century, and "Bound for the Rio Grande", a rollicking sea-song playlet by Captain Frederick Wallace. Each of these was repeated by request on three successive days.

The 16th annual winter carnival with the first official Western Canada Ski tournament will be held at Revelstoke, February 4-6. World records have been made on the ski hill at Revelstoke and leading ski jumpers of the continent will attend the carnival.
